

## CAN FACTORY IN OGDEN HAS HAD A SUCCESSFUL SEASON

Thirty Million Cans Produced in Nine Months for the Canning Plants and Condensed Milk Factories—An Average of 250 Employees During the Busy Season.

With nine months of its first year's history passed, the Ogden plant of the American Can company has been pronounced an entirely satisfactory investment and, in the way of an employer of labor, has proven one of the city's best assets. According to Superintendent J. G. Leonard who, with J. F. Wheeler, assistant superintendent, and J. D. Sarrar, factory clerk, form the executive force of the new industry, the company employed an average of 250 workers during its busy season and its working force has never dropped below 75. Two-thirds of the employees are men and one-third women, the year round, Mr. Leonard stated, and the most efficient mechanics and machine operators are to be kept regularly on the payroll. This winter, the plant will be operated on an eight-hour basis, with its present force of employees.

The output of the plant since it was put into operation last March reached an approximate total of 30,000,000 cans and it is worthy of note, this immense volume of packages was disposed of in Utah, the company having but a small stock of cans on hand at the present time.

The product of the plant consists of 16, 18 and 20 ounce sanitary milk cans; Nos. 2 and 2 1/2 hole and cap packers cans and Nos. 2, 2 1/2 and 10 standard sanitary cans.

The local concern also represents the American Can company in the distribution of general line cans, all styles of packages in plain and decorated tin, such as lard pails, oil cans, druggists' tinware, candy containers, galvanized tubs, boilers, etc.

Should the demand for any of these packages increase to a degree that would warrant it, it is probable, Supt. Leonard stated yesterday, that equipment for their manufacture would be installed at the local factory.

Provisions for such additions of machinery having been made when the plant was built. One additional line of equipment has been installed in the plant since it was first put into operation. This is for the manufacturing of sanitary cans and its installation was made necessary through a number of large Utah packers changing from the old style solder cans to improved sanitary cans.

The factory, being new, is one of the most up-to-date in the United States, and is the largest one of its kind between Kansas City and the Pacific coast.

The tin-plate, from which the cans are made, and of which an immense tonnage is used, is shipped to Ogden from districts around Pittsburgh, Pa. The scrap tin recovered from the manufacturing operations is shipped east to the re-tinning mills, where the tin is removed from the black iron and utilized for re-tinning other sheets.

### GERMANS HASTEN SHIPMENT OF MUNITIONS TO TURKISH ALLIES

The occupation of Belgrade by the Germans was considered as one of the strategic moves of the kaiser's army in its plan to aid the Turks. As a shipping point for war material it has proved of great importance to the Teutonic forces. As soon as they entered the city they immediately began the shipment of huge quantities of war material to Constantinople.

office department, permitting the use of a limited number of pre-cancelled stamps. Instead of the senders being required to receive and affix the stamps to their parcels as at present, under the holiday plan, they will only be required to be precise in writing their name and address in the return card corner, and to properly address the parcel to the person who is to receive it. They will then pass it through the window and a clerk will weigh it, call for the proper amount of postage and then affix the stamps himself, the sender being at liberty to leave. In the case of insured packages, a triplicate check is to be prepared. Each division will be numbered, the sender will be given the first one, the clerk will write the address and return on the second, and the third will be placed on the insured parcel, the only time taken before the window in the transaction being for the weighing of the parcel and paying the proper postage and insurance.

Sing, K. Kona, Jas. Sakai, "Jimmy" Tomason, Kajack and J. Musmat. The house had been under suspicion a number of days as a resort for gamblers, and the time being deemed ripe for action, this morning, Patrolman Mansel went in ahead of the other officers. He knocked on a

William Kirk, the man who fell down stairs at 359 Twenty-fourth street yesterday afternoon, and received several cuts on his head, pleaded guilty to a charge of drunkenness in the police court this morning and was given a suspended sentence. He was booked under the pseudonym of John Doe yesterday, being unable to give his correct name. This morning, except for spots on his head, he was none the worse for his experience. ### EAGLES REPEAT THEIR SUCCESS

"Wun Long Fun" was presented last night at the Orpheum theatre for the second and last time, under the auspices of the local Eagles lodge. A good-sized crowd witnessed the performance and heartily applauded the different acts. Almost without a sign of nervousness, the entertainers handled their different parts with even more finish than on the opening night and the crowd thoroughly enjoyed the work. The vocal and instrumental male quartettes again came in for a big share of appreciation and the work of Miss Ella Lassen and Blanche Moore made a special appeal to the audience. Miss Glen Short, Miss Ethel Lawton, Miss Gayla Liston and Bertha Roach handled their parts in the performance effectively and the little Misses Dorothy and Anita Greene again made a big hit. Others to whom the success of the entertain-

ment was due are Grant Syphers, Lon Rogers, Earl Peterson, Harry Staker, Will Muller, Jess Farley, R. B. Carter, O. L. Syphers, Herbert Dabney, Dan R. Davis, J. S. Cox, Amy Shupe, Vera Shupe, O. M. Moore, Ida Ludwig and Ellen Shaughnessy.

The male members of the vaudeville company are members of the Eagles lodge and, in view of their success, their brother "Eagles" are mentioned over the fact. In speaking of the 1915 entertainment, a prominent member of the lodge stated today that it was highly satisfactory as such, but that from a financial standpoint it was not as big a success as had been anticipated and as it deserved to have been. Nevertheless, he said further, the "Eagles" Christmas celebration for the "Kiddies" would be as elaborate and far-reaching as in other years.

The "Show" committee to whom much credit is due for the excellence of the 1915 annual entertainment of Ogden Aerie No. 118, F. O. E. is as follows:

Fredric Moss—Musical director.  
Grant Syphers—Stage director.  
Bert Syphers—Stage carpenter.  
Jess Farley—Electrician.  
Earl Peterson—Scenic effects.  
Ben A. Critchlow—Properties.  
R. B. Henderson—Decorating.  
C. A. Knowlton—Costumes.  
The members of the committee who financed the affair are Tom Shaughnessy, William Doyle and Gilbert Porter.

### WORLD'S MARKETS

New York, Dec. 2.—There was further general selling of stocks in the first half-hour of today's market, the movement gathering momentum from the bullish interests which appeared to be dominant at the moment. United States Steel was again the target of selling 3-4 to 35 3-4 on fairly large offerings. Specialties in the war class were lower by 1 to over 2 points and copper shares the same trend. Rails were again unresponsive to additional favorable October statements of earnings, although New York Central and Reading were fractionally higher. New Haven and Erie were heavy.

### Chicago Grain

Chicago, Dec. 2.—Indications of a large export business carried wheat prices today decidedly higher. It was said that sales of wheat to be shipped by way of the Gulf of Mexico were of greater magnitude than had been generally supposed. Sharp falling off in receipts northwest counted also in favor of the bulls. Opening prices here, which ranged from a shade off to 5-8c up, with December at \$1.06 1-4 to \$1.06 3-4 and May at \$1.09 to \$1.09 5-8, were followed by material upturns all around.

Absence of offerings from the country gave a lift to the corn market. After opening 1-8 to 3-8c higher, the market scored notable further gains. Oats partook of the strength of other cereals. Provisions were firm as a result of the bullish showing in the monthly statement of the stocks on hand here. The wheat close was strong, 3 to 3 1-8c net higher, with December at \$1.09 3-4 and May at \$1.12 1-8. The corn close was strong at 1 1-4 to 2 1-4c net advance.
